

Bounty Crop XL

Systemic Nutritional Complex

DESCRIPTION

BOUNTY CROP XL™ is a specialized custom formulation designed specifically for use on fruits and vegetables crops, providing key nutritional elements to support crop establishment, vigor, and productivity.

BOUNTY CROP XL™ is a water-soluble fertilizer containing Nitrogen, Phosphorous and Potassium, and a micronutrient package that includes Calcium, Magnesium, Zinc, Sulfur, Manganese, Iron, Boron, Copper, and Molybdenum. These nutrients are delivered systemically to the plant, supporting higher nutrient absorption and efficacy.

BOUNTY CROP XL™ promotes crop health and supports improved panicle development to increase crop quality and yield potential.

BENEFITS

- Increase crop yield and quality
- Stimulate flowering, fruit set and overall plant health
- Promote crop vigor and growth
- Enhance plant immunity, promote robust plant structure
- Increase grain filling and uniform ripening in rice and other cereals
- Increase milling yield and profitability
